

## MMS Nordic is hiring!

### Project Manager – Process Execution Specialist

As a Project Manager, you will play a central role in overseeing projects, ensuring their successful execution—on time, within scope, and on budget. Collaborating with internal and external partners, you'll drive project excellence across multiple disciplines.

#### Main Responsibilities:

- **Project and Budget Management:** Lead project teams throughout the execution stages and control project budgets.
- **Customer and Supplier Interaction:** Manage projects directly, maintaining effective communication with customers and suppliers.
- **Technical Expertise:** Apply technical calculations and process design knowledge. Review proposed solutions for specific customer projects.
- **Procurement Specification:** Specify project purchases.
- **Coordination and Support:** Coordinate manufacturing, installation, commissioning, and handover to customers.
- **Documentation:** Prepare comprehensive project documentation, including flowcharts, P&IDs, 3D drawings, and plant documentation. Participate in CE-marking processes.
- **Quality Assurance:** Ensure project quality within your assigned projects.
- **Sales Support:** Provide technical support in sales and project-related activities.

#### Educational Background:

- Bachelor's degree in Mechanical Engineering, Marine Engineering, or Technical Engineering.
- Relevant technical background with work experience from similar positions

#### What we expect from you:

- Experience with membrane filtration.
- Relevant experience in hygienic design of process equipment for dairy, food, biotech, or related industries.
- Project Management Experience: Proven track record in project management.
- Technical Expertise: Strong understanding of flow components and instrumentation, as well as hygienic design principles for process plants.
- Excellent flow diagram and 3D plant design skills.
- Language Proficiency: Fluent in written and spoken Danish and English (knowledge of German is a plus).
- Approximately 10 travel days per year.

#### What you can expect from us:

We offer an interesting and inspiring job in a dynamic, innovative, and customer-oriented company, where you'll experience an open and enthusiastic approach to new applications for membrane filtration. You'll become part of our Fun & Filtration Team that values an open-minded atmosphere, sense of humor, and collaboration.

Ready to join our team? Apply now! Send your application to HR Manager Pia Klitte, [pia.klitte@mmsnordic.dk](mailto:pia.klitte@mmsnordic.dk) as soon as possible.

If you need additional information, please call Christoffer B. Christensen, Head of Project Execution, at +45 2033 3504.

We will start conducting job interviews shortly and expect to hire during August.
