

MMS Nordic is hiring!

Technical Designer - Process Design Specialist

Are you a creative problem solver with a passion for making things work? As a Technical Designer, you'll be part of the Project team that brings ideas to life. Here's what you'll do:

Main Responsibilities:

- **Draw the Blueprint:** Create flowcharts and diagrams / P&IDs to plan how things should fit together.
- **Bring Designs to Life:** Use 3D drawings to visualize projects.
- **Do the Math:** Calculate technical details for process design.
- **Choose the Right Stuff:** Specify what materials we need for each project.
- **Coordinate Everything:** Coordinate and make sure manufacturing and installation go smoothly.
- **Document Everything:** Keep track of and document all project details, and make the plant documentation.
- **Quality Assurance:** Ensure project quality, especially for goods received or to be shipped.
- **Risk Assessment:** Participate in risk assessments for CE-marking.
- **Review with the Customer:** Join project design review meetings with our valued customers.
- **Sales Support:** Provide technical expertise to support sales, projects, and development.
- **Travel a Bit:** Explore new places (about 10 days per year).

Educational Background:

- Technical Designer or Bachelor's degree in Mechanical Engineering with relevant skills in 3D design
- Relevant technical experience from similar positions.
- First-time job seekers are welcome—we value fresh perspectives!

What we expect from you:

- You're a wizard with flow diagrams and 3D design tools for process plants.
- You've worked with process equipment for industries like dairy, food, or biotech.
- You're interested in flow components and how things move through pipes.
- You care about designing hygienic process plants.
- You speak Danish and English fluently (bonus points if you know German).

What you can expect from us:

We offer an interesting and inspiring job in a dynamic, innovative, and customer-oriented company, where you'll experience an open and enthusiastic approach to new applications for membrane filtration. You'll become part of our Fun & Filtration Team that values an open-minded atmosphere, sense of humor, and collaboration.

Ready to join our team? Apply now! Send your application to HR Manager Pia Klitte, pia.klitte@mmsnordic.dk as soon as possible. If you need additional information, please call Christoffer B. Christensen, Head of Project Execution, at +45 2033 3504. We will start conducting job interviews shortly and expect to hire during August.
